

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

July 15, 2019

Mr. Robin DeLaBarre
Office of Nuclear Energy, Safety
& Security, Room 33200 HST
Bureau of International Security
& Nonproliferation
U.S. Department of State
2201 C Street, NW
Washington, DC 20520

Dear Mr. DeLaBarre:

Enclosed is an application received by the U.S. Nuclear Regulatory Commission (NRC), dated June 18, 2019, from Halliburton Energy Services, for a specific license (PXB230.00) to export Category 2 quantities of Americium-241, Americium-241/Beryllium, Cesium-137, Cobalt-60, and Californium-252 to Iraq. The sealed source will be used for oil and gas well logging operations.

Since Iraq is on the embargoed destinations list (10 CFR Part 110.28), before taking action on this new request, we would appreciate your views, in accordance with established procedures and from the overall perspective of the Executive Branch, as to whether the requested export meets the applicable criteria in the Atomic Energy Act of 1954, as amended.

Sincerely,

7/15/2019

 Janice E. Owens
