SUBJECT: Comments on Draft Regulatory Guide DG-1356 (proposed Regulatory Guide 1.187, Revision 2) (Docket ID NRC-2019-0086)

Dear Sir or Madam:

Entergy Nuclear Operations, Inc. and Entergy Operations, Inc. (collectively referred to as "Entergy") are providing this letter in response to the NRC request for comment on Draft Regulatory Guide, DG-1356. DG-1356 proposes additional guidance on digital instrumentation and control modifications. Specifically, DG-1356 endorses with exceptions and clarifications, NEI 96-07, Appendix D, Revision 0, "Supplemental Guidance for Application of 10 CFR 50.59 to Digital Modifications." If finalized, DG-1356 would become Regulatory Guide 1.187, Revision 2.

Entergy has been an active participant in the NRC and industry meetings regarding this topic and endorses the comments provided by the Nuclear Energy Institute (NEI).

If you have any questions or require additional information, please contact me at (601) 368-5102.

Sincerely,

A handwritten signature in black ink, appearing to be "PLC", written over a horizontal line.
