Joseph Hendrie, Chairman
Nuclear Regulatory Commission
1717 H St. NW
Washington, D.C. 20555

Dear Mr. Chairman,

In light of the serious hazards caused by the recent failure of the pressurized water reactor at Three Mile Island Station, and because I understand that the Salem 1 reactor in Lower Alloways Creek Township, near Salem, New Jersey is of similar design, I respectfully urge that the Nuclear Regulatory Commission initiate an immediate inspection of the Salem facility with every consideration given to the integrity of the facility and the safety of all persons living in the vicinity.

I thank you for your prompt action in this critical matter.

Sincerely,

Andrew Maguire
