

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
REGION III  
2443 WARRENVILLE ROAD, SUITE 210  
LISLE, ILLINOIS 60532-4352

July 17, 2019

Mr. Daniel H. Blossfeld  
Radiation Safety Officer  
General Motors, LLC  
Research and Development Center  
30500 Mound Road  
Warren, MI 48090

SUBJECT: GENERAL MOTORS, LLC RESEARCH AND DEVELOPMENT CENTER;  
NOTIFICATION TO CEASE PRINCIPAL ACTIVITIES AT THE WARREN,  
MICHIGAN FACILITY UNDER LICENSE NO. 21-00016-04

Dear Mr. Blossfeld:

This refers to a letter dated June 21, 2019 (ML19176A273) notifying the NRC that, as of on or about June 21, 2019, the licensee had ceased principal activities at the 30500 Mound Road, Warren, Michigan facility under License No. 21-00016-04. The licensee notified the NRC in accordance with 10 CFR 30.36.

In accordance with 10 CFR 30.36(d), the licensee can begin and complete decommissioning within 24 months so that the building is suitable for release in accordance with NRC requirements or submit within 12 months of notification a decommissioning plan, if required by 10 CFR 30.36(g)(1).

When a licensee permanently ceases principal activities at a building, outdoor area or site, the NRC considers the facility to transition from operational to decommissioning, for fee-billing purposes, and the fees you will be assessed may change. Please contact the NRC to discuss your plans to decommission your site and the impacts it will have on your fee-billing.

The NRC may perform decommissioning site inspections of your facility at any time prior to NRC approved unrestricted release of a site or outdoor area.

If you have any questions concerning the decommissioning process or the requirements for the decommissioning of your facility, you may contact Michael LaFranzo of the Materials Control, ISFSI, and Decommissioning Branch at 630-829-9865.

In accordance with Title 10 of the Code of Federal Regulations 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC's Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC's website at <http://www.nrc.gov/reading-rm/adams.html>.

D. Blossfeld

2

Any correspondence regarding the decommissioning of your facility request should reference your license, docket number and mail control number.

Sincerely,

*/RA/*

Michael M. LaFranzo, Senior Health Physicist  
Materials Control, ISFSI, and  
Decommissioning Branch  
Division of Nuclear Materials Safety
