

OCT 3 1975

Docket No.: 50-320

H. R. Denton, Assistant Director for Site Safety, TR
ORGANIZATIONAL MATTERS FOR THREE MILE ISLAND, UNIT 2

In response to your memorandum to me dated September 11, 1975 on the above subject, these matters are currently under consideration by the Quality Assurance Branch. With regard to the first item we will pursue means for assuring that the Radiation Protection Supervisor (RPS) has the authority and freedom to implement his job responsibilities, keeping in mind the current plant staff organization is in effect for Three Mile Island, Unit 1.

With regard to the second item we intend to see if the RPS meets the revised Regulatory Guide 3.8. However, since the RPS is currently functioning in this job assignment for Three Mile Island, Unit 1, and since the implementation provisions for the Regulatory Guide does not provide for "backfit", we do not intend to pursue this issue any further.

Our efforts in this regard will be conducted through the LPM for Three Mile Island, Unit 2.
