Reactor Project Branch 2, DRL

JERSEY CENTRAL POWER & LIGHT COMPANY, OYSTER CREEK NUCLEAR GENERATING  
STATION UNIT NO. 2, DOCKET NO. 50-320

I am forwarding a copy of the facility license application filed by Jersey Central Power & Light Company, including the "General Information" portion and Volumes 1, 2, and 3 of the Preliminary Safety Analysis for the proposed Oyster Creek Nuclear Generating Station Unit No. 2. The proposed reactor is of the pressurized water type and is to be located adjacent to the existing Oyster Creek Unit 1. The reactor is designed for initial operation at approximately 2468 thermal megawatts with a net electrical output of approximately 810 megawatts.

Please review the application and provide Mr. C. A. Lovejoy, Office of the Controller, with your comments as to the reasonableness of the applicant's estimates of the cost of construction of the proposed reactor. A copy of your comments should be sent to this office together with the attached documents.

If additional information is needed in order to complete your review, please let us know.
