Docket No: 50-320

MEMORANDUM FOR: Milton J. Grossman, Hearing Division Director and Chief
Counsel, OELD

FROM: D. B. Vassallo, Assistant Director for Light Water
Reactors, DPM

SUBJECT: BOARD NOTIFICATION - THREE MILE ISLAND 2

I recommend that the enclosed Part 21 report regarding a gouged pipe
spool piece, wherein some of the gouges were hidden by a welder, be
sent to the Three Mile Island 2 Hearing Board for their information.

As noted in the report, the deficiency is the hiding of the gouges and
not the fact that gouges were burned in the pipe.

D. B. Vassallo, Assistant Director
for Light Water Reactors
Division of Project Management
