Gentlemen:

Enclosed is a copy of the testimony that the FAA will be sponsoring at the NRC hearing commencing on December 11, 1978. You will note that it is included (beginning on page 31) in the testimony of the NRC Staff which pertains to accident and traffic data. We felt that since the FAA testimony largely concerned traffic data and operations at Harrisburg International Airport and Capital City Airport, that it could logically be grouped with the NRC testimony on this subject matter. As such, the FAA witnesses will become part of a panel of witnesses as indicated on the cover page. We believe that this grouping of witnesses is logical not only insofar as the information presented, but it will aid the Appeal Board if any confusion or questions arise which can best be answered by the FAA instead of the NRC. This panel grouping may also have the added benefit of a more open dialogue concerning your areas of expertise.

Also note that initials of witnesses are indicated in parenthesis beside each response. These are merely guides to the Appeal Board in order that they may direct their question to a particular witness. Obviously, if another witness can best answer the question, he should respond.
