U.S. Nuclear Regulatory Commission
Washington, D.C.

Dear Sirs

I am writing to you concerning the radiation emissions from 3 mile Island in the Susquehanna river area. Since the U.S. Court of Appeals gave the Nuclear Regulatory Commission the go ahead to fire up the nuclear reactor the radiation levels have been many fold up. Since ~~the~~ Easter the low highs were 1.0 r.p.h. many days have been 5 or better. On 4-21-78 it was up to 8 r.p.h. for several hours. The next day ~~it~~ 5 all afternoon. Animals and livestock got ~~so~~ sick and some died. Everybody around here is achy and crampy. The Abit-
meny list had to be continued on ~~other pages~~. Even the earthworms died. Sounds ridiculous? ?? It's true. It's about time that there is some honesty and quit denying the truth. This is chronic murder and you must stop it.

ORIGINAL COPY

We all have the right to live without being injured and killed with nuclear radiation that the nuclear industry keeps just because they are peddling nuclear power. The phony claim that nuclear power is safe and clean is a "deliberate lie." It kills chronically. The neutron bomb kills about the same but faster. The only thing "clean" about it is that it "cleans up on all life" as a tax paying citizen who helps pay your maintenance demand that you stop your work honestly and shut this radiation. Either stop zero radiation or shut nuclear plants off.

Acknowledged by card 5/3

Yours Truly
Paul Helonka
