Mr. Steven A. Varga  
Chief Light Water Reactors Branch  
Division of Project Management  
U. S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Mr. Varga:

On April 1, 1977, I filed on behalf of Jersey Central Power & Light Company, Metropolitan Edison Company and Pennsylvania Electric Company applications for amendment of Construction Permit CPPR-96 for Forked River Nuclear Station, Unit 1, and for amendment of Construction Permit CPPR-66 for Three Mile Island Nuclear Station, Unit 2. The requested amendments would authorize a change in the ownership interests of the three companies in the two facilities.

Enclosed on behalf of the three companies are three original and 19 copies of Amendment No. 1 to each of the foregoing applications. The amendment consists of a revision of the Application-Declaration filed with the Securities and Exchange Commission on January 13, 1977, which Application-Declaration was submitted to the NRC as Attachment A to the Forked River application and incorporated by reference in the TMI #2 application. Copies of the revision of the Application-Declaration are attached to Amendment No. 1 to the Forked River application. In substance, the revisions to the Application-Declaration reflect miscellaneous changes in the financial arrangements between the three companies relating to the proposed change of ownership but make no changes in the percentages of ownership interests proposed to be transferred.

Sincerely,

*George F. Trowbridge*
