

ENVIRON. FILE (NEPA)

Docket Nos. 50-289  
and 50-320/

FEB 11 1972

Mr. William M. Gross, Esquire  
Assistant Attorney General  
Commonwealth of Pennsylvania  
Department of Health  
Harrisburg, Pennsylvania

Dear Mr. Gross:

On November 29, 1971, the AEC issued a Determination to Suspend Certain Construction Activities at the Three Mile Island Nuclear Generating Station Units 1 and 2, currently under construction by the Metropolitan Edison Company and Jersey Central Power and Light Company.

Upon consideration of the Companies' answer to the Commission's Order to Show Cause, it has been determined that cause has been shown for reconsideration and withdrawal of the order to show cause only to the extent it applies to electric power transmission lines other than the Juniata line.

Upon consideration of the licensees' answer to the Order to Show Cause, it has been determined that the Director of Regulation's Determination should be modified so as to provide for the suspension of construction activities involving the offsite portion of only the Juniata transmission line for the Three Mile Island Nuclear Generating Station, Unit 2, pending completion of the NEPA Environmental Review relating to these matters. The Director of Regulation has served on the licensees an order suspending such construction activities.

The amended determination has been submitted to the Office of the Federal Register for publication.

In order to provide you with complete information concerning this proceeding, we are also enclosing copies of the documents issued earlier in this matter for your use.

Sincerely,

Original Signed By  
R. C. DeYoung

R. C. DeYoung, Assistant Director  
for Pressurized Water Reactors  
Division of Reactor Licensing
