

MAR 6 1971

Docket No. 50-320

Mr. Donald H. Pack, Deputy Director
Air Resources Environmental Laboratory
National Oceanic & Atmospheric
Administration
8050 13th Street
Silver Spring, Maryland 20910

Dear Mr. Pack:

A copy of Amendment No. 11 dated January 6, 1971, submitted by the Metropolitan Edison Company is enclosed for your information.

Amendment No. 11 consists of revised and additional pages to the PSAR, and also includes Supplement No. 7 to the application for licenses. Supplement No. 7 responds to AEC questions on the post-tensioning system to be used in the reactor building of the Three Mile Island Nuclear Station, Unit No. 2.

Sincerely,

Signed by
Charles G. Long

Richard C. DeYoung, Assistant Director
for Pressurized Water Reactors
Division of Reactor Licensing
