---

Mr. Lancaster,

I need to report a leak in our EP1 – liner to you.

I am working on a write-up for the 48hr reporting, but wished to make you aware that it is forthcoming.

Please call if you require specifics prior to my write-up being sent out.

My concern is that I am up against my 48hr window and I need to ensure your awareness.

- NMED was notified in their required 24hr window
- Total volume of leaked brine is 12,000 gallons
- The leak was stopped within 2 hours
- The hole in the liner is above the water line
- Repairs will be completed this week

Contact me if you need additional clarification. Thank you.

Dave Pierce
