Mr. James Allen, Deputy Director
Office of Inspection and Enforcement
Region 1
U. S. Nuclear Regulatory Commission
631 Park Avenue
King of Prussia, PA 19406

Dear Jim:

By letter dated June 20, 1979, we transmitted to you a report by NUS entitled, "General Review of the Health Physics Program at the Three Mile Island Station," requesting that the report be treated as proprietary under 10CFR 2.790. We understand the Commission's initial assessment is that this document probably does not fulfill the requirements for being treated as proprietary and that we may either withdraw our request for proprietary treatment of the document or ask for its return to us. In order that the Commission may retain the report and make use of it along with other materials provided during the investigations being conducted of the TMI-2 accident, we withdraw our request that the report be treated as proprietary.

Sincerely,

R. C. Arnold
General Operations Manager
