NUCLEAR ENERGY
ENGINEERING
DIVISION

GENERAL ELECTRIC COMPANY, P.O. BOX 460, PLEASANTON, CALIFORNIA 94566

August 21, 1979

Mr. Chris Nelson
U.S. Nuclear Regulatory Commission
Office of Nuclear Reactor Regulation
Washington, D. C., 20555

Dear Mr. Nelson:

The attached Special Publication 56 titled "Geologic Evaluation of the General Electric Test Reactor Site" by the California Division of Mines and Geology (CDMG) gives that body's technical view of the geologic features seen in the trenching at the Vallecitos Nuclear Center. Although I recognize the CDMG has submitted this report directly to the NRC, I want to be sure that it has been placed in Docket (50-70) for the General Electric Test Reactor. Copies of this publication may be obtained from the CDMG in Sacramento, California.

Sincerely,

R. W. Darmitzel
Manager
Irradiation Processing Operation
