July 6, 1979

Dr. Joseph M. Hendrie
Chairman & Commissioner
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Commissioner Hendrie:

On behalf of the faculty and students of the Nuclear Engineering Program at the University of Maryland, I would like to invite you and your wife to an informal dinner on the evening of August the 3rd, 1979.

A good number of our students are working as summer interns or as co-op students with U.S. NRC this summer. One of our graduate students is an ACRS Fellow and some of our faculty and students plan to get together downtown and go to dinner sometime this summer. We would be honored if you and your wife would be able to join us as our guests. I have spoken to your personal secretary Ms. Peggy Shuttleworth and she has suggested August 3rd as a tentative date.

Thank you very much for your consideration. We look forward to an early and favorable response.

Sincerely yours,
Richard Lee
