IN RESPONSE REFER  
TO FOIA-79-100

Dear Ms. Weiss:

This is in further response to your letter dated April 6, 1979, in which you requested, pursuant to the Freedom of Information Act, communications between Three Mile Island personnel and NRC, between various NRC offices, and the log books of the Licensing and Operating Project Managers for Three Mile Island.

The documents subject to your request which are being withheld in part or in total are listed in Appendices A through E. The description for each document contains the applicable Freedom of Information Act exemption and a description of the information being withheld. The enclosed chart also indicates the names of the NRC denying officials. The appropriate appeal procedures are set forth below. The non-exempt portions of documents listed in Appendices A, B, C and E have been placed in the NRC Public Document Room, 1717 H Street, N.W., Washington, DC 20555.

Pursuant to 10 CFR 9.9 and 9.15 of the Commission's regulations, we have found that the information withheld is exempt from production or disclosure, and that its production or disclosure is contrary to the public interest. As provided in 10 CFR 9.11, the denials by Messrs. Denton, Stello and myself may be appealed to the Executive Director for Operations within 30 days from receipt of this letter. Any such appeal must be in writing, addressed to the Executive Director for Operations, U.S. Nuclear Regulatory Commission, Washington, DC 20555, and should clearly state on the envelope and in the letter that it is an "Appeal from an Initial FOIA Decision." The denials by Messrs. Bickwit, Chilk, and Kammerer may be appealed within 30 days to the Commission and should be addressed to the Secretary of the Commission.

In a subsequent letter, we will inform you concerning the disposition of the transcripts of tapes of telephone conversations at the NRC Incident Response Center, and two documents which have been referred to other agencies for consultation.

Any additional documents which may be relevant to the Three Mile Island Nuclear Generating Station, Unit 2, that are made available by the NRC will be placed in the PDR in Docket File 50-320.
