

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

August 20, 1979

POOR ORIGINAL

Mr. Dean Hansell, Esq.
Office of the Attorney General
188 West Randolph Street
Suite 2315
Chicago, IL 60601

In the Matter of General Electric Company
(G.E. Morris Operation Spent Fuel Storage Facility)
Docket No. 70-1308

Dear Mr. Hansell:

This will confirm our meeting scheduled for August 29, 1979, at 10:00 A.M. at your office to discuss the contentions the State of Illinois has proposed in this proceeding.

As indicated during our recent phone conversation, I will be accompanied by Mr. Stuart Treby and Mr. Fleming Empson, the Staff's Safety Project Manager responsible for the review of the GE application. In addition, it is expected that counsel for GE, Mr. Ronald W. Sz wajkowski and Mr. Edward Firestone, accompanied by Mr. David Dawson of GE, will attend our meeting.

As I stated in our conversation, another meeting may be required in our efforts to reach an agreement on contentions and we agreed that September 18 or 19, 1979, would be convenient dates to hold that meeting. During our meeting on August 29, we can further discuss this schedule.

Sincerely,

Marjorie B. Ulman

Marjorie B. Ulman
Counsel for NRC Staff
