Mr. Carlton Kammerer
Director
Office of Congressional Relations
Nuclear Regulatory Commission
1717 H Street, N.W.
Washington, D.C. 20555

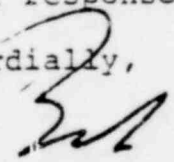

Dear Mr. ~~Kammerer~~ Kammerer:

I am writing you on behalf of my constituent, Mr. Richard Shoup, who has expressed some difficulty in obtaining information from the Nuclear Regulatory Commission pertaining to the proposed dumping of water containing low-level radioactive waste into the Susquehanna River.

In order that I may properly respond to my constituent, please explain the proposed process for cleaning the water that contains radioactive waste prior to the possible dumping into the Susquehanna River. Second, can you and the NRC assure me that should the dumping take place, the water then in the Susquehanna River will meet all current state and federal water pollution standards.

I look forward to receiving your response.

Cordially,

Robert S. Walker
