

NRC-PDR

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D. C. 20555

SEP 10 1979

MEMORANDUM FOR: G. Arndt, Structural and Component Standards, Division of Engineering Standards

FROM: E. Adensam, Section Leader, Plant Systems Branch, DOR

SUBJECT: REQUEST FOR REVIEW AND COMMENT OF ANS-N274

The current manpower situation in Section B, Plant Systems Branch does not lend itself to a review of how the ANS committee disposed of our earlier comments on ANS N274 - Containment System Leakage Testing Requirements. We must trust to your ability to resolve any differences in how the comments were handled.

*E. Adensam*
