Supplemental Response to IE Inspection  
Report Nos. 50-373/78-28 and 50-374/78-20  
NRC Docket Nos. 50-373 and 50-374

Reference (a): G. Fiorelli letter to B. Lee, Jr.  
dated February 2, 1979

Dear Mr. Keppler:

In order to resolve the open issue relative to weld repair records which was addressed in Reference (a), General Electric Company issued Nonconformance Report (NCR) LSFwl-2 for the feedwater safe-end weld in question. The resolution of that NCR documents the repair made to the root of that feedwater safe end (150° azimuth). This documentation is available at LaSalle County Station for review by Region III.

Please direct any additional questions you may have in this regard to this office.

Very truly yours,

*Louis O. DeLoe*
