FEDERAL ENERGY REGULATORY COMMISSION  
WASHINGTON, D.C. 20426

June 13, 1979

Mr. Ross A. Scarano  
Section Leader, New Facilities  
Section  
Division of Waste Management  
Nuclear Regulatory Commission  
Washington, D. C. 20555

Dear Mr. Scarano:

I am replying to your request of April 16, 1979 to the Federal Energy Regulatory Commission for comments on the Draft Generic Environmental Impact Statement on Uranium Milling. This Draft EIS has been reviewed by appropriate FERC staff components upon whose evaluation this response is based.

The staff concentrates its review of other agencies' environmental impact statements basically on those areas of the electric power, natural gas, and oil pipeline industries for which the Commission has jurisdiction by law, or where staff has special expertise in evaluating environmental impacts involved with the proposed action. It does not appear that there would be any significant impacts in these areas of concern nor serious conflicts with this agency's responsibilities should this action be undertaken.

Thank you for the opportunity to review this statement.

Sincerely,

Jack M. Heinemann  
Advisor on Environmental Quality
