SUBJECT: PAPER FOR THE AMS CONFERENCE ON COASTAL METEOROLOGY

I wish to submit a paper to the Second Conference on Coastal Meteorology, ... sponsored by the American Meteorological Society. Enclosed are the short abstract and reviewer's abstract for the paper and a description of the conference. Because I must send these abstracts to the Program Chairman by July 27, 1979, I would appreciate your approval by July 18, 1979.

The paper describes a method we are considering to use to calculate atmospheric concentrations for the overwater sectors at coastal sites. This conference presents an excellent opportunity to get comments from the meteorological community on our proposal.
