Re: Peach Bottom Atomic Power Station Unit 2  
Docket No. 50-277

Dear Dr. Denton:

Enclosed for filing with the Commission are three originals and 37 copies of Philadelphia Electric Company's Application for Amendment of Facility Operating License DPR-44. This Application requests changes to the Peach Bottom Unit 2 Technical Specifications which would extend temporarily the core spray pump flow rate surveillance test frequency.

In accordance with Section 170.12 of the Commission's regulations, I am enclosing a check payable to the United States Nuclear Regulatory Commission in the amount of \$4,000 to cover the filing fee for this Application.

Very truly yours,

  
Eugene J. Bradley
