Secretary of the Commission
U.S. Nuclear Regulatory Commission
1717 H Street, N.W.
Washington, D.C. 20555

Dear Secretary,

As president of the Swatara Water Sports Association I should like to testify at the hearings being scheduled by the Nuclear Regulatory Commission concerning the Three Mile Island Nuclear Plant.

Members of the Swatara Water Sports Association use the waters of the Susquehanna River adjacent to, and downstream from the discharge of the Nuclear Plant for water skiing and recreational boating. We are vitally concerned with the air and river water quality and request that releases of radioactive water or gas not be made without adequate warning being given to those who may be enjoying the river for recreation.

Respectfully,

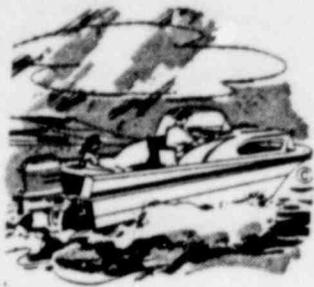

S.T. Kirman, O.D., President
