Mr. L. C. Rouse, Chief
Fuel Processing and Fabrication Branch
Division of Fuel Cycle and Material Safety
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Dear Mr. Rouse:

In the Matter of) Docket No. 50-328
Tennessee Valley Authority)

Enclosed are 15 copies of an application for a special nuclear material license for the Sequoyah Nuclear Plant unit 2. This application is filed pursuant to the Commission's regulations in 10 CFR Part 70 requesting authorization for receipt, possession, and storage of unit 2 assembled fuel assemblies and up to 100 loose fuel rods at the Sequoyah Nuclear Plant.

Fuel delivery to the Sequoyah site is scheduled to begin on or about October 10, 1979, therefore, we request the special nuclear material license by September 24, 1979.

In accordance with 10 CFR 170.11(a)3 an amendment fee is not required.

Very truly yours,

TENNESSEE VALLEY AUTHORITY

NOTE

TO: I&E, PDR, LPDR, TERA,

Please change your correspondence dated July 23, 1979, from Tennessee Valley Authority, and replace that document with the attached document. There was an error in the docket number, it should have been assigned a new docket number, but was given an old docket number of one of the other Tennessee Valley Authority. Please make the following changes, Docket number should read on correspondence 70-2913, not 70-2443, in which you may have filed it under. See enclosed document.

Thank You,
