PROPOSED RULE PR-71 (44FR #235)

September 17, 1979

Secretary of the Commission
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Attention: Docketing and Service Branch

Dear Sir:

We have reviewed a copy of the Federal Register item [10CFR Part 71] pertaining to the packaging of Radioactive Material for transport.

Within our NRC licence for the Bunker Hill Community College Nuclear Medicine Technology Program Hot Lab, we will have occasion to receive or transport only type A materials, most sealed sources falling under the type A₂ levels. The proposed changes in Ci amounts as they apply to the A₂ level will not affect our situation in that the sources we hold or have delivered all are well below the suggested levels.

We understand and will comply with all provisions for packing and transport of any nuclear materials.

Sincerely,

Paul H. Buckley

Paul H. Buckley, Director
Program Development and Research
