Gentlemen:

This office has received a copy of your letter dated August 16, 1979, which transmitted your Security Training and Qualification Plan to the Office of Nuclear Reactor Regulation (ONRR) for review and approval as required by 10 CFR 73.55 of the Commission's regulations. The Plan is for Rancho Seco Nuclear Generating Station under Facility License DPR-54. The submittal was not accompanied by approval or amendment fee as required by Section 170.22 of 10 CFR 170. Section 170.12(c) requires that your company provide a proposed determination of the amendment (approval) class, state the basis therefor, and remit the fee corresponding to this determination with the application for approval or amendment.

Based on guidance from the ONRR staff as a result of preliminary review of your Plan, it has been determined that your application involves consideration of a single safeguards issue requiring a Class III fee of \$4,000. Fees are payable to the U.S. Nuclear Regulatory Commission by check, draft, or money order. If the final review of your Plan by the ONRR staff reveals that this fee is incorrect, you will be refunded any overpayment or billed for any additional amount due.

Sincerely,

W.O. Miller
