

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D. C. 20555

SEP 14 1979

MEMORANDUM FOR: Harold L. Ornstein  
TMI-2 Task Force

FROM: Gary L. Bennett, Chief  
Research Support Branch

SUBJECT: TRANSMITTAL OF INFORMATION ON HUMAN FACTORS

Pursuant to your recent request, I have rummaged through my files and collected those human factors documents which seemed to be of interest. They are enclosed for your use and safekeeping.

I believe you will find that there have been attempts over the years to start various research programs on human factors--some have been successful, others never seemed to get the appropriate support.

If you need more information or would like to discuss the subject further, please let me know.

Gary L. Bennett, Chief  
Research Support Branch
