Docket No. 50-289

Mr. Donald H. Pack, Acting Director
 Air Resources Laboratory
 Environmental Science Services
 Administration
 8060 13th Street
 Silver Spring, Maryland 20910

Dear Mr. Pack:

A copy of Volumes 1, 2, and 3 of the Preliminary Safety Analysis Report filed by Metropolitan Edison Company for the proposed construction and operation of a pressurized water nuclear reactor are enclosed for your review. The proposed facility is to be located at the Company's Three Mile Island site, an island in the Susquehanna River in Londonderry Township, Dauphin County, Pennsylvania, approximately ten miles southeast of Harrisburg, Pennsylvania. The proposed reactor is designed for initial operation at 2452 megawatts (thermal).

We would appreciate receiving a report from the Air Resources Laboratory, ESSA, on the meteorological aspects of the proposed reactor location which might have a bearing upon our safety review.

On the basis of our tentative schedule for this project, it would be desirable to have your report available for our use by August 15, 1967.

Sincerely yours,

Original signed by:
 Roger S. Boyd

Roger S. Boyd, Assistant Director
 for Reactor Projects
 Division of Reactor Licensing
