DOCKET NUMBER *Rel Cases*

Mr. W. B. McCool
Secretary
Office of the Secretary
U. S. Atomic Energy Commission
Washington, D. C. 20545

In the Matter of Metropolitan Edison Company
Three Mile Island Nuclear Station, Unit 1
Docket No. 50-289

Dear Mr. McCool:

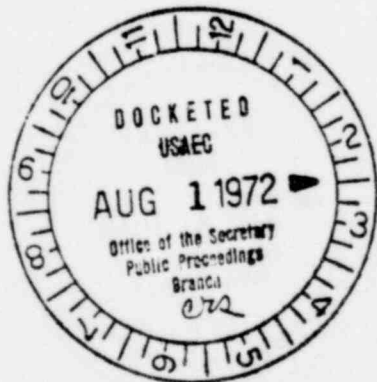

This is in response to a letter dated July 7, 1972 from Frank R. Clokey, Special Assistant Attorney General for the Commonwealth of Pennsylvania, requesting an extension of time until September 7, 1972 for the Commonwealth to file a petition for leave to intervene in the captioned proceeding. Mr. Clokey states that a petition would be filed only if, after review of the Applicant's environmental report and the AEC Regulatory Staff draft detailed statement, such action appears necessary. Mr. Clokey explains in his letter that the request for additional time is necessitated by the involvement of staff of the Commonwealth Department of Environmental Resources in more pressing activities resulting from the effects of the recent hurricane.

The AEC Regulatory Staff recommends granting the requested extension since we believe good cause has been shown for it to be granted. We have contacted counsel for the Applicant and he has informed us that the Applicant does not object to the granting of this specific request.

Sincerely,

Joseph Gallo
