Docket Nos. 50-289/320

NOTE TO: Harley Silver, LWR-4, DPM
 FROM: R. Wayne Houston, Chief, IS&EP, DPM
 SUBJECT: THREE MILE ISLAND STATION SECURITY PLAN

As a result of the proposed change in management structure for the Three Mile Island Station, the enclosed should be transmitted to the applicant. In my view, this enclosure does not contain sensitive information that should be withheld from public disclosure.

THREE MILE ISLAND SECURITY PLAN

We have reviewed the Three Mile Island Station Industrial Security Plan through Revision 12 dated April '5, 1976 with respect to references to Station and/or Unit management authorities and responsibilities for security. Additional changes in the plan are necessary so that these references accurately and clearly reflect the currently proposed Station management organization.

Reference to the Station Superintendent, a position we understand is not now proposed to be utilized, occurs at page 6 (2nd para.), page 8 (last para.), and page 8a (last para.). Reference to the Unit Superintendent occurs on page 6a (2nd para.), and on Figure 2 which purports to show the line responsibility for security matters. Since there are expected to be two Unit Superintendents at Three Mile Island, these references lack clarity and specificity.

It is the staff's position that, since the security program is a station-wide program, a single management level individual should be designated as having the authority and responsibility which Met Ed had previously proposed to vest in the Station Superintendent.
