Mr. J. G. Miller
Vice President
Metropolitan Edison Company
P. O. Box 542
Reading, Pennsylvania 19603

Dear Mr. Miller:

On January 24, 1973, we met with members of your organization to discuss details of the non-radiological technical specifications related to the licensing and operation of the Three Mile Island Nuclear Station, Units 1 and 2. At that meeting it was agreed that you would submit a revised draft of these technical specifications to us by March 1, 1973. We have not yet received this material.

In order to establish a revised licensing review schedule, we need a firm estimate of the date the required draft of the technical specifications will be available. Please inform us within 7 days after receipt of this letter of the date you will be able to meet.

Sincerely,

Original signed by
Daniel R. Muller

Daniel R. Muller, Assistant Director
for Environmental Projects
Directorate of Licensing
