Mr. A. Giambusso
Deputy Director for Reactor Projects
Directorate of Licensing
U. S. Atomic Energy Commission
Washington, D.C. 20545

Dear Mr. Giambusso:

Subject: Three Mile Island Nuclear Station,
Units 1 and 2 (TMI-1, and TMI-2)
Docket Nos. 50-289, and 50-320
Anticipated Transients without Scram (ATWS) Analysis

In response to your request that detailed ATWS reports be submitted for all Category "B" and "C" plants by October 1, 1974, (reference your letters to our Mr. J. G. Miller dated October 9, and October 10, 1973), please be advised that:

1. B & W will submit to both your office and my office
 - a. a topical ATWS report which will cover both our TMI-1 and TMI-2 plants (we presently anticipate B & W submission by December 13, 1974) and
 - b. an interim status report on the progress of their analysis (we presently anticipate B & W submission by October 1, 1974), and
2. Following our review of the B & W ATWS topical report, amendments will be submitted to the TMI-1 and TMI-2 Final Safety Analysis Reports (FSARs).

We trust that the above actions -- although not consistent with your request for FSAR amendments to be submitted by October 1, 1974 -- will

- a. allow B & W more time to develop more representative analyses, and
- b. allow your office and B & W sufficient time to ensure that

1590 186 10317

the B & W topical ATWS report satisfactorily addresses the Commission's ATWS criteria.

Sincerely,

R. J. Arnold
