Dear Sir,

Some construction workers were over and in conversation they mentioned that on 3 mile Island near Harrisburg (where the nuclear Power plant is being built) that there were signs posted to keep away so many feet varying in different areas from where the fenced in storage tanks are kept.

Why are these warning signs there?

Will appreciate hearing from you!

Thank you!

Sincerely

Mrs. Lydia Tichy

P.S. ^{also} Do you have any pamphlets
Thank you!
