

OCT 10 1973

Metropolitan Edison Company
ATTN: Mr. Jack Herbein, Assistant
Station Superintendent
Three Mile Island Nuclear Generating
Station
P. O. Box 480
Middletown, Pennsylvania 17057

Dear Mr. Herbein:

This letter confirms, per your request, the examination schedule set up by telecon with Mr. E. L. Conner of this office on October 4, 1973.

Based on your fuel loading date of March 15, 1974 and the schedule presented in our letter to Mr. John L. Wise of your company on September 14, 1972, we have reserved the week of January 14, 1974 for administration of the operator and senior operator written examinations and the week of February 11, 1974 for administration of the "cold" operating tests.

The above dates are based on our receiving, by November 19, 1973, all applications and all procedures as requested by the September 14, 1972 letter and other materials committed in the September 1972 meeting at this office.

If it becomes apparent that the fuel loading date will slip appreciably, please notify the assigned chief examiner for TMI Unit #1, Mr. E. L. Conner, of this office. His telephone number is (301) 973-7476.

Sincerely,

~~CONFIDENTIAL~~
P. F. COLLINS

Paul F. Collins, Chief
Operator Licensing Branch
Directorate of Licensing
