DOCKET NUMBER
PROPOSED RULE PR - Misc. Rules
Reg. Guide

October 15, 1979

Secretary of the Commission
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Attention: Docketing and Services Branch

Subject: Proposed Revision to Regulatory Guide 1.33
Comments
Duke File: A-12.16-2

Dear Sir:

The proposed Guide referenced above lists procedures in Appendix A for various activities. Since not all of these activities are safety-related, the first sentence of Appendix A should be rewritten for clarity. Duke suggests rewording as follows:

"The following are typical activities that should be covered by written procedures. Many of these activities are safety-related."

Mr. Jim Beall will serve as a point of contact if additional discussion is desired.

Very truly yours,

L. C. Dail
L. C. Dail, Vice-President
