Offshore Power Systems

October 22, 1979

Secretary of the Commission
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Attention: Docketing and Service Branch

Dear Sir:

Offshore Power Systems appreciates the opportunity to comment on the Draft Division 8 Regulatory Guide (Task OH 7-7-4) "Radiation Protection Training for Light-Water-Cooled Nuclear Power Plant Personnel".

We reviewed the proposed guide and believe it should substantially improve uniformity of training to workers at commercial power plants.

- From Table 1, page 13, it is not clear that the effects of potentially radioactive airborne contamination are included as a specific topic. Therefore, we suggest this topic be included as part of item 2, Table 1.

Very truly yours,

D. H. Walker

D. H. Walker, Manager
Licensing and Radiation Analysis
