

SERVED OCT 30 1979

October 18, 1979

Sheldon J. Wolfe,
Chairman of the Atomic Safety and Licensing Board Panel
U.S. Nuclear Regulatory Commission
Washington, D.D. 20555

Dear Mr. Wolfe:

As a concerned resident of Houston's west side, I wish to Petition for Leave to Intervene in the current proceedings regarding the proposed nuclear plant site in Wallis, Texas.

I do understand I am tardy in filing this petition but do offer as good cause the following factors:

- (1) My participation alone will safeguard my interests. I do not trust my interests with other parties.
- (2) I am a law-abiding teacher with the Houston Independent School District. I am expert at expressing myself on paper and orally. My participation will further enhance these proceedings due to my familiarity with the Davis-Bessie nuclear plant in Northwest Ohio. (Only as late as September have I taken up residence in Houston.)
- (3) I feel that without my participation, some (or not all) of my interests will be fully and accurately represented by the existing parties. I have a responsibility to my wife and future children to provide a safe environment for them.
- (4) I assure you that my participation will not broaden the basic issue. I will ask for no delays in the proceedings.

Please consider my request to intervene and report to me your decision as soon as possible.

Sincerely yours,

Robert Alexander
