Attention: Ms. Elaine Hemby

Subject: Our Application for License of October 24, 1979
Our Reference 136123, Zircaloy-2 Tube Shells

Gentlemen:

This will confirm the telephone conversation between yourself and our Mr. J. Buonocore of October 29th, wherein we informed that we had inadvertently omitted mentioning, in the end use block, the following three reactors which will also be using the nuclear fuel cladding tubes produced by Kobe Steel Ltd. in addition to Fukushima II, Unit No. 1:

- A. Reactor : Shimane Unit 1, Reload 7
 Located : Kashima-cho, Yatsuka-Gun,
 Shimane Pref., Japan
 Operated by : The Chugoku Electric Power Co., Inc.

- B. Reactor : Fukushima-I, Unit No. 5 Reload 3
 Located : Okuma-machi and Futaba-machi
 Futaba-Gun, Fukushima Pref., Japan
 Operated by : The Tokyo Electric Power Co., Ltd.

- C. Reactor : Hamaoka Unit No. 1, Reload 6
 Located : Hamaoka-cho, Ogasa-Gun,
 Shizuoka Pref., Japan
 Operated by : The Chubu Electric Power Co. Ltd.

Please add the above reactors to our referenced application.

Thank you for your usual kind cooperation in this matter.

Very truly yours, 1366 129

T. Monden
