NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D. C. 20555

NOV 2 1979

Mr. Glenn R. Switkes  
513 Ramos Avenue  
Hayward, California 94544

Dear Mr. Switkes:

As you requested I am sending under separate cover the GEIS on Uranium Milling. I have also included a copy of the document, "Description of United States Uranium Resource Areas." This document is a supplement to the GEIS.

The results of monitoring in the vicinity of the Church Rock dam failure has not been completed yet. When a final report is available, I will send a copy to you.

There are three publications on in situ leaching available for purchase from the National Technical Information Service, Springfield, Virginia 22161. They are as listed.

1. NUREG/CR-0311 Ground-Water Elements of In Situ Leach Mining of Uranium - Printed Copy \$9.00; Microfiche \$3.00
2. NUREG-0481 Final Environmental Statement on Irigaray Uranium Solution Mining Project - Printed Copy \$10.75; Microfiche \$3.00
3. NUREG-0489 Final Environmental Statement on Highland Uranium Solution Mining Project - Printed Copy \$9.50; Microfiche \$3.00

If I can be of any further help, please call me at 301/427-4103.

Sincerely,

*Betty Fisher*
