Hon. Marshall E. Miller, Chairman  
 Atomic Safety and Licensing Board  
 U.S. Nuclear Regulatory Commission  
 Washington, D.C. 20555

RE: Pacific Gas and Electric Company  
 (Stanislaus Nuclear Project, Unit  
 No. 1) Docket No. P-564A

Dear Chairman Miller:

This will confirm the results of our conversation of this afternoon, during which I reported that the Department of Water Resources and Southern California Edison Company have reached agreement regarding the subpoena duces tecum directed to Edison and your board's August 15, 1979, order. In the same conversation you granted DWR and Edison reasonable additional time to execute and file the necessary documents.

As I indicated, the agreement that has been reached is only between DWR and Edison and has not yet been reviewed by the other parties. We will, of course, serve all parties when the filing is made.

Thank you very much for your assistance in this matter.

Very truly yours,

GEORGE DEUKMEJIAN  
 Attorney General
