Subject: RE: Exelon LAR Demonstration Drills

Mr. Walker (Doug) –

I spoke with the Exelon Fleet Project Manager in NRR/DORL, who indicated that placing this email into ADAMS would provide sufficient documentation of Exelon's notification of the NRC regarding the opportunity to observe these drills per Exelon's commitment documented in respective NRC safety evaluations.

At this time, NSIR/DPR (NRC HQ) plans to observe the following drills, and will coordinate our with observation with FEMA and Region I:

- August 27, 2019 – TMI Decommissioning PSEP Demonstration Drill, and
- November 15, 2019 – Calvert Cliffs / Peach Bottom Dual Site Demonstration for the Calvert EOF move to Coatesville.

Mike Norris of my staff has the lead in coordinating NRC observation of the above drills, and requests that you forward him a copy of the narrative summary/timeline for these drills, which he will place in ADAMS as "non-public" for drill scenario confidentiality purposes. Mike will work through respective NRR/DORL Project Manager to arrange a conference call prior to these drills to discuss the scenario scope/extent of play and coordinate logistics.

I will inform FEMA HQ and FEMA Region III RAC Chair of the August 27 and November 15 drill dates and request confirmation as to FEMA's intent to observe these drills.

Finally, NSIR/DPR (NRC HQ) does not plan on observing the ERO minimum staffing drills listed below for Limerick, Peach Bottom and LaSalle Stations, but I am "cc'ing" Region I and III EP Branch Chiefs for their awareness.

Joseph D. Anderson, Chief
Reactor Licensing Branch
Division of Preparedness and Response

Subject: [External_Sender] Exelon LAR Demonstration Drills

Joe,

I wanted to touch bases with you regarding Exelon's ERO Min Staffing Demonstration Drills. We have the drills scheduled and wanted to make sure you were informed of the dates. The States and affected local counties have also been notified of these dates.

Here are the dates for our Min Staff Demonstration Drills

- September 10, 2019 – LaSalle Station w/ Cantera EOF
- September 19, 2019 – Peach Bottom Station w/ Coatesville EOF
- September 24, 2019 – Limerick Station w/ Coatesville EOF

In addition, we also have the following demonstration drills scheduled to support the implementation of other LARs....

- August 27, 2019 – TMI Decommissioning PSEP Demonstration Drill
- November 15, 2019 – Calvert Cliffs / Peach Bottom Dual Site Demonstration for the Calvert EOF move to Coatesville

I have a couple of questions for you...

- Will you need a formal docketed letter stating this information, or is this email sufficient?
- Do you have any indication which of these drills NRC (either NSIR or region) will observe?
- Will you need copies of any of the scenarios in advance of the drill (if so, which ones). (I believe we are already planning to send the Dual Site Calvert/PBAPS scenario to you per your request).

Let me know if you have any questions for us.

Doug Walker
