

October 23, 1979

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

SECY-79-166A

INFORMATION REPORT

For: The Commissioners

From: James R. Shea, Director
Office of International Programs

Thru: Executive Director for Operations

Subject: EXECUTIVE BRANCH RESPONSE ON PENDING EXPORT
APPLICATION DATED 10/17/79, XSNM01471, LEU
FOR PHILIPPINES

Purpose: To inform the Commission of the above subject.

POOR ORIGINAL

TAR for L.U.G.

Discussion: Enclosed for the information of the Commission are copies of the Executive Branch response on a pending export license application. (See SECY-79-166). Copies of the Executive Branch comments have been placed in the Public Document Room. As the Commission is aware, this proposed export relates to XR-120, the application for the reactor in which this fuel would be used. The Commission recently decided to consolidate XR-120 and XCOM-013 (the components application), but not XSNM1471, into the proceedings on procedural and jurisdictional issues called for by the Commission Order of October 19.
