Mr. B. K. Grimes, Acting
Assistant Director
for Systems Engineering
Division of Operating Reactors
Office of Nuclear Reactor Regulation
U. S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Grimes:

This is to confirm receipt of your letter dated September 7, 1979, concerning guide thimble tube wear in Westinghouse fuel assemblies and our agreement to meet with your Staff on the subject.

The purpose of the meeting is to respond to the questions enclosed with your letter and to provide all necessary clarifications needed for completion of the Staff review.

Per discussion with Mr. Bob Riggs of your Staff, the date of October 12, 1979 was confirmed for a meeting in Bethesda, with the following agenda:

1. Chronology of wear data gathering and submittals to NRC.
2. Description of components design.
3. Wear measurements.
4. Guide thimble tube wear model.
5. Safety evaluation.
6. Wear due to other core components.
7. Conclusion.

POOR ORIGINAL

Very truly yours,

T. M. Anderson, Manager
Nuclear Safety Department
