Office of Nuclear Reactor Regulation
Attn: Harold R. Denton, Director
U. S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Sir:

Three Mile Island Nuclear Station, Unit 1 (TMI-1)
License No. DPR-50
Docket No. 50-289
Safety and Non-Safety Grade System Interaction

On October 17, 1979, a letter (GQL 1294) was sent to your office which included a report on the subject issue. On various pages of this report, several analyses were addressed which referred to a response that would be included in the TMI-1 Restart Safety Analysis Report. Subsequent to sending letter GQL 1294, we have re-evaluated the nature of these analyses and determined that the results can best be submitted as a separate report. Accordingly, this report will be sent prior to the startup of TMI-1.

Sincerely,

J. G. Herbein
Vice President-Nuclear Operations
