MEMORANDUM FOR: S. E. Bryan, Assistant Director for Field Coordination,
DROI, IE

FROM: R. F. Heishman, Franch Chief, Reactor Operations and

SUBJECT: LICENSE RENEWALS FOR IDENTIFIED RESEARCH REACTORS
(HO7001937)

In response to your request of June 27, 1979, regarding research facilities located in Region III, the attached information was obtained from the inspection personnel most knowledgeable in the performance of these facilities.

While, as identified in the attachments, there are regulatory concerns at several of these facilities, these concerns are not, in our judgement, considered to be of sufficient magnitude to warrant the withholding of license renewal.

R. F. Heishman, Chief
