Mr. Walter P. Haass, Chief  
Quality Assurance Branch  
Division of Project Management  
U. S. Nuclear Regulatory Commission  
Washington, D. C. 20555

Subject: Organizational changes in Combustion Engineering Quality Assurance Program

Reference: Letter, C. J. Heltemes, Jr. to A. E. Scherer, dated November 16, 1977

Dear Mr. Haass:

The referenced letter provided NRC approval of Revision 3 of CENPD-210, "Quality Assurance Program - A Description of the C-E Nuclear Steam Supply System Quality Assurance Program". The letter also stipulated that organizational changes which do not affect the QA program are to be submitted no later than 30 days after announcement.

There is currently an evolutionary reorganization of the Nuclear Power Systems Engineering and Development Organization in progress at Combustion Engineering. When the current reorganization has been completed, the organizational changes will be formally submitted. We expect this to occur in the first quarter of 1980. If we can be of further assistance, please feel free to contact Ms. J. M. Cicerchia of my staff at (203)688-1911, Extension 2595.

Very truly yours,

COMBUSTION ENGINEERING, INC.
