(b) Proposed Change No. 66 (Change to Maine Yankee
Administrative Control Technical Specifications) -
Submitted July 17, 1978 (WMY 78-71)

Dear Sir:

Subject: Additional Changes to Maine Yankee's Administrative Control
Specifications as Submitted in Reference (b)

Pursuant to Section 50.59 of the Commission's Rules and Regulations, the Maine Yankee Atomic Power Company hereby proposes the following modifications to Appendix A of its Operating License.

Proposed Change: Reference is made to Section 5, (Administrative Controls) of Maine Yankee's Technical Specifications. Maine Yankee requests that figure 5.2-1 (Offsite Organization), and figure 5.2-2 (Facility Organization) be modified at this time. Maine Yankee previously submitted a proposed change to its administrative control specification (Reference (b)), which is still awaiting NRC action. Maine Yankee requests that the changes indicated in this submittal be incorporated into that previously submitted request for change. In the interest of clarity, the entire Administrative Control Specification section, revised to reflect those changes presently being requested is resubmitted as Attachment A.

Reason for Change: The purpose is to better reflect the current Maine Yankee plant and offsite organizational structures and the current titles associated with each position. The changes (5.2-1 & 5.2-2) more clearly delineate the assigned areas of responsibility and authority. Other changes are to maintain consistency and are not substantive.
