Mr. Ross A. Scarano
Chief, Uranium Recovery
 Licensing Branch
Division of Waste Materials
 Safety & Safeguards
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Scarano:

The time of renewal of the operating license for the Lisbon mill of Rio Algom Corporation is about two years away. In order to ensure no hold-up in the operation we wish to start work in the near future on the renewal application.

Please advise as to the renewal requirements for the Lisbon operation, or to whom we should apply to obtain this.

Regards,

Peter Pullen
